| Total | \$ 30,200.00 | \$ 30,200.00 |

Attachment 2

At Olivet College we strongly believe that STUNT is an active and valuable athletic participation opportunity for our student-athletes. With that being said we fund and operate our team under the Department of Athletics. Our student-athletes in the STUNT program have access to the services in athletics and we hold these students to the same eligibility requirements as our NCAA student-athletes.

Our STUNT team reserves practice times in one of our practice gyms and has their own equipment and mats they use for these practices. Our competitions are held in our main gym and receive the same game day support and event advertisings as all of our other sports. This year our team competed in 15 games across the state of Michigan and Ohio. We hosted 3 of these games on the campus of Olivet College.

Our coaching staff is active in USA Cheer, utilizing their resources and training materials. Our head coach is also the Vice President of the College STUNT Coaches Association. As members of USA Cheer we believe they are a great resource for us to utilize when it comes to the development and operations of our program, while still allowing us the autonomy to make our own institutional decisions about the program at Olivet College.

As we continue to build and grow our program we firmly believe that this sport should be treated as all of our sports are treated and provide equal designation and opportunities for our young women competing in STUNT. This is a philosophy we will continue to work under and support for not just our STUNT team but all teams across the department.
