STUNT Program Inauguration: 2018

Tiffin University's 12th varsity women sport

Roster Stats:

2018: 20 female participants

2019: 26 female participants

STUNT Coach Testimonial

“STUNT has been an incredible addition to our athletic program. The sport requires a combination of agility, flexibility, acrobatic skill and endurance. Our athletes work extremely hard at practice and in the weight room to prepare for competition on the mat. We are grateful that STUNT has offered female athletes competitive opportunities at the collegiate level. Our STUNT program has been in existence for one competitive season and we are looking forward for the opportunity to continue to influence the lives of women in sports.”

- Hannah Tyson, Head STUNT Coach

Athletic Director Testimonial

“We are excited to have added STUNT to our athletic department. STUNT is a sport that has been growing in collegiate programs around the country in recent years. I think we can offer a great opportunity to student athletes that want to receive a great education at Tiffin University.”

- Lonny Allen, Athletic Director

Student-Athlete Testimonial

“What I love best about STUNT is you really have to work as a team; it is not just one person working hard. The bonds we have made with each other are unbelievable and unbeatable.”

- Katy Cunningham, STUNT Athlete

Tiffin University (TU) approved STUNT as its 25th NCAA Division II intercollegiate varsity sport and its 12th varsity women's sport in the fall of 2017. As a varsity sport, the program receives the same benefits and treatment as all other varsity sports on TU's campus.

TU STUNT has their own practice space on campus. The institution rents a former elementary school building for classroom space from a church. Through this rental agreement, the university secured the church's gym as TU STUNT's practice facility. This gym houses all team mats and equipment and is the team's designated practice facility. The team practices three times a week in this facility during their reserved timeframe.

For games and tournament play, TU's campus features a gymnasium and indoor athletic complex that allows the STUNT program to host games and tournaments. During our first competitive season, our program hosted a tournament featuring five teams on our campus at our indoor athletic complex. We are looking to host more games and tournaments during our second season.

STUNT student-athletes receive athletic, academic and accolade acknowledgement on TU's campus. STUNT student-athletes have an assigned athletic trainer that provides treatment to the team as well as team lifting with the Strength and Conditioning Coach. Academically, student-athletes have study-table hour requirements, access to tutoring, and success coach assignments based on need. STUNT student-athletes receive athletic accolade acknowledgement during our ESPY-inspired "Green and Gold Awards" ceremony, during our student-athlete scholarship luncheon and can be featured as Marathon Athlete of the Month.

These student-athletes also participate in additional opportunities offered by the Athletic Department. STUNT student-athletes are members of the Student-Athlete Advisory Committee (SAAC) and participate in fundraising and volunteer efforts for Make-A-Wish. This past year, STUNT student-athletes participated in the Senior Woman Administrator's "Women's Leadership Speaker Series" for all female student-athletes. TU offers STUNT student-athletes athletic scholarship opportunities. Additionally, STUNT student-athletes must abide by all compliance regulations set-forth by our institution's Athletic Department and Compliance Officer.

TU's administration fully supports STUNT as an intercollegiate varsity sport. The institution has provided the necessary resources for the success of the program and its student-athletes. The institution looks to USA Cheer for guidance as they continue to develop this program for future female athletes.
